

## Compassion. Service. Excellence.

{slimbox align=|right| padding=|5| title=|Vision Imaging of Kingston is located in a building with a large, inviting foyer.| album=|mri|}images/stories/kingston/lobby4163.jpg{/slimbox}These three words define Vision Imaging of Kingston &ndash; Wyoming Valley&rsquo;s premier diagnostic imaging facility.

Founded in 2004, Vision Imaging of Kingston offers outpatient imaging services in a warm, comfortable setting that feels more like a spa than a medical facility.

The doctors and staff at Vision Imaging of Kingston are dedicated to remaining at the forefront of technology to make certain that they are providing the best care for their patients and the most accurate results for physicians.

{slimbox align=|left| padding=|5| title=|Waterfalls lead to koi-filled ponds.| album=|mri|}images/stories/kingston/lobby\_waterfall.jpg{/slimbox}We are committed to offering the latest in imaging technology and equipment to provide you and your doctor with fast and accurate results to get you back to living your life.

Our highly skilled technologists attend numerous continuing education classes and seminars during the year to ensure we offer the highest quality care while staying at the forefront of technology.

Vision Imaging&rsquo;s team of eight radiologists are trained in numerous imaging and testing procedures and are certified by the American Board of Radiology.

This dedication to providing the best service possible is best summarized in our motto... &ldquo;Where compassion, service and excellence is our vision.&rdquo; We&rsquo;ll never settle for anything less.
